Paper Trade Journal

Index to feature articles

Volume 161—Year 1977

The articles below are cross-referenced for the convenience of users. Short items and news stories are not included in this index.

Chemicals

	Page	Issue
Binders, dispersants, brightness are among topics of Coating Conference papers	27	Aug. 1
Chemical Outlook '77—Buyers' guide to papermaking chemicals	31	Aug. 15
Chemical Outlook '77—Responses to 1977 PTJ Chemical Survey	28	Aug. 15
Combustion catalyst for fuel oil reduces energy consumption and carbon emissions—Ronald C. Andrade	61	Feb. 15
Handling, dispersing and dispensing of talc: new methods can improve pitch control—James E. Holton	48	May 1
New chemicals and methods highlight TAPPI Coating Conference	32	July 15

Conference reports

Binders, dispersants, brightness are among topics of Coating Conference papers	27	Aug. 1
Decisions and how to make them featured at PIMA conference	26	Aug. 1
Energy rates high at CPPA	50	April 1
Final report on TAPPI Engineering Conference	48	Nov. 15
Focus on research at 41st IPC Executives' Conference	30	July 1
Glatfelter honored at U. Maine's Open House	48	June 1
High consistency preparation of waste paper can save power and improve quality (TAPPI Engineering Conference)	57	Nov. 1
Need for communications stressed at CPPA Maintenance Conference—Karen R. Boiko	38	Nov. 15
New chemicals and methods highlight TAPPI Coating Conference	32	July 15
Policymakers of U.S. and paper industry agreed on priorities at API Paper Week	Cover	April 15
Rance receives TAPPI Medal Award	48	March 15
Report on the annual meeting of the Technical Section of CPPA	24	March 1
Stock preparation trends key on energy, raw material (TAPPI Annual Meeting)	51	March 15
TAPPI Coating Conference: reports focus on drying, blade coating	50	Aug. 15
TAPPI Engineering Conference papers focus on alternative energy boiler	33	Jan. 1
TAPPI Engineering Conference report	43	Oct. 15
TMP continues to generate interest as crowds jam session at TAPPI—Peter Inserra	42	March 15
TMP systems get more complex, but stones still grind away (International Pulping Conference)	28	Oct. 1
Wet-end barring and stock blending were among topics features at TAPPI's Papermakers' Conference	34	July 15
Wet-end barring and twin-wire forming were among topics at TAPPI Papermakers' Conference	33	July 1
Will energy costs prove to be the Achilles heel of mechanical pulp? (Report on International Mechanical Pulping Conference)	Cover	Aug. 1

Economics, statistics & trends

API survey reflects industry caution	44	Nov. 15
Does the paper industry have to be cyclical?—Clarence W. Brown	46	June 1
Economic advantages of the closed-cycle mill	33	March 15
Focus 78	27	Dec. 15
Only 36 companies can afford future growth and expansion—Ralph W. Michaud.	34	Oct. 15
PTJ transportation survey: constant effort and ingenuity needed to combat rising costs—Peter Inserra and Karen Boiko	34	April 1
Production leaders—ranks leaders in production of various grade by 1976 tonnage	46	June 15
Survey shows job outlook best for engineers and MBAs—Karen R. Boiko	24	May 15
Top 50: annual financial guide to the North American paper industry	39	June 15

Engineering, technology & energy

Automatic system at Garden State improves newsprint wrapping procedure	47	June 1
Bahco drying system turns bark into high grade fuel	66	Feb. 15
Clevepak's submerged aeration system cuts energy use—Karen R. Boiko	24	Dec. 1
Combustion catalyst for fuel oil reduces energy consumption and carbon emissions—Ronald C. Andrade	61	Feb. 15
Drying efficiency can be boosted with radiant electric heaters—Hugo N. Cahnman	25	Feb. 1
Energy costs, pollution control influence new capacity design—Philip R. Askman	35	Feb. 1
Energy rates high at CPPA	50	April 1
Fan users must work with fan designers to get the right unit	44	Sept. 15
Final report on TAPPI Engineering Conference	48	Nov. 15
Honeycomb rolls are being used more and more; a manufacturer tells why—John W. Rohrer	23	July 15
Hydro-sonic scrubbers are a success at Tuscaloosa	37	June 1
Industrial turbine energy supply systems can provide reliable, economic power—Harry Stead and William B. Wilson	35	Sept. 15
New concept gives Appleton Papers superior vacuum control—E.R. Woodard	40	Sept. 15
Precision electronic control valve and encoder ensure accurate control of pulp flow	45	Dec. 1
Reducing paper machine noise: focus on high-speed winders—Risto Hautamaki	28	Dec. 1
Reducing paper machine noise: focus on suction rolls, forming rolls, drive gears—Risto Hautamaki	27	Sept. 1

Report on the annual meeting of the Technical Section of CPPA	24	March 1
Selective plating is suggested as a way to cut unscheduled downtime in mills–Herb Freedman	34	Sept. 1
7% savings in steam usage of corrugator is reported by box plant using new controls –Dale Fuller	31	April 15
TAPPI Engineering Conference papers focus on alternative energy boilers	33	Jan. 1
TAPPI Engineering Conference report	43	Oct. 15
Weyco's Springfield, Ore., mill leads the way in community co-generation–Karen R. Boiko	33	Sept. 15
Will energy costs prove to be the Achilles heel of mechanical pulp? (Report on International Mechanical Pulping Conference)	Cover	Aug. 1

Environmental control

API, NFPA present environmental and management awards	31	July 15
Are you ready for the Safe Drinking Water standards?–Arthur J. Freedman	43	Dec. 1
Clevepak's submerged aeration system cuts energy use–Karen R. Boiko	24	Dec. 1
Energy costs, pollution control influence new capacity design–Philip R. Askman	35	Feb. 1
Environmental laws in midst of directional change–Frank Vizard	37	May 15

Expansion & modernization

Bucksport's No. 5 machine adds 65% capacity to St. Regis' mill–Karen R. Boiko	44	Aug. 15

International

Braviken TMP mill making pulp for newsprint, magazine grades–Robert C. Tate	26	July 1
De-inking in Finland: First mill on stream, second to make market pulp–Harry Dyer	30	Nov. 1
Optimistic business outlook highlights U.K. chemicals and coating conference	23	July 1
Prospect seems slight that U.K. industry's problems can be solved by the government	33	Aug. 1
Stock prep was theme of U.K. Div. conference	36	Jan. 15
Symposium in Amsterdam focuses on European raw materials for papermaking	48	April 1

Maintenance

Corrosion performance of high-molybde-

Author index to

A

Adams, Robert L.–Mead prefers independent sources. Nov. 1, p. 38
Andrade, Ronald C.–Combustion catalyst for fuel oil reduces energy consumption and carbon emissions. Feb. 15, p. 61
Askman, Philip R.–Energy costs, pollution control influence new capacity design. Feb. 1, p. 35
Ayer, John A. and Kallmes, Otto J.–Optical device installed at wet end monitors single-pass filler retention. March 1, p. 32

B

Bergstrom, Wally–Solving synthetic coating problems. Nov. 1, p. 51
Boiko, Karen R.–Bucksport's No. 5 machine adds 65% capacity to St. Regis' mill. Aug. 15, p. 44
——Clevepak's submerged aeration system cuts energy use. Dec. 1, p. 24
——Weyco's Springfield, Ore., mill leads the way in community co-generation. Sept. 15, p. 33
——Fibreboard plans to become a smaller, stronger company. July 15, Cover
——Gulf States' Robert Fuller looks at evolving role of the chemist in the paper industry. June 1, p. 34
——Need for communication stressed at CPPA Maintenance Conference. Nov. 15, p. 38
——Snowflake III: Continental's Augusta mill to make four-ply, Yankee-dried bleached board. March 15, Cover
——Revitalized Institute of Paper Chemistry is on its way to education, research goals. May 15, p. 33
——Peter E. Wrist, new TAPPI president, discusses the association's goals. May 1, p. 36
——Robert W. Hisey is named PTJ's Papermaker of the Year, Dec. 1, Cover
——Survey shows job outlook best for engineers and MBAs. May 15, p. 24
Boiko, Karen and Inserra, Peter–PTJ transportation survey: constant effort and ingenuity needed to combat rising costs. April 1, p. 34
Britt, Kenneth W.–Why bother about first-pass retention of solids on the paper machine? April 15, p. 36
Brown, Clarence W.–Does the paper industry have to be cyclical? June 1, p. 46

C

Cahnman, Hugo N.–Drying efficiency can be boosted with radiant electric heaters. Feb. 1, p. 25
Coker, L.T. and Gaddis, R.W.–Protective coatings–future problems need solving today. Oct. 15, p. 38

D

Dyer, Harry L.–De-inking in Finland. Nov. 1, p. 30

E

Edgar, Clement B. Jr.–How sheet flutter can be reduced through use of single felting. Jan. 15, p. 33
Edenborough, L.D.–'Managing' quality to enhance profitability. May 1, p. 39

F

Freedman, Arthur J.–Are you ready for the Safe Drinking Water standards? Dec. 1, p. 43
Freedman, Herb–Selective plating is suggested as a way to cut unscheduled downtime in mills. Sept. 1, p. 34
Fuller, Dale–7% savings in steam usage of corrugator is reported by box plant using new controls. April 15, p. 31

G

Gaddis, R.S. and Coker, L.T.–Protective coatings–future problems need solving today. Oct. 15, p. 38

H

Hagymassy, J. Jr., Hetherington, L.E. and Moss, M.H.–New Lab coater provides closer correlation to on-line experience. Feb. 15, p. 54
Hautamaki, Risto–Reducing paper machine noise: focus on high-speed winders. Dec. 1, p. 28
Hautamaki, Risto–Reducing paper machine noise: focus on suction rolls, forming rolls, drive gears. Sept. 1, p. 27

num stainless steel–M. Liljas and B. Wallen . . . . . 39 Dec. 1
It takes a mechanic, not an oiler, to oil a machine, says this maintenance super . . . 36 Oct. 1
It takes know-how to combat wet-end corrosion problems–C.C. Nathan and A.J. Piluso . . . . . 32 Nov. 15
Lubricant conservation techniques require carefully planned program . . . . . 28 Jan. 15
Need for communication stressed at CPPA Maintenance Conference–Karen Boiko . . 38 Nov. 15
Protective coatings–future problems need solving today–R.S. Gaddis and L.T. Coker . . . . . 38 Oct. 15

Man in the news

Fibreboard plans to become a smaller, stronger company (Robert J. McLaughlin) –Karen R. Boiko . . . . . Cover July 15
Gulf States' Robert Fuller looks at evolving role of the chemist in the paper industry– Karen R. Boiko . . . . . 34 June 1
Outlook for labor demands this year in U.S. (Joseph P. Tonelli, UPIU)–Robert C. Tate Cover Feb. 1
Peter E. Wrist, new TAPPI president, discusses the association's goals–Karen R. Boiko . . . . . 36 May 1
Robert W. Hisey is named PTJ's Papermaker of the Year–Karen R. Boiko . . . . . Cover Dec. 1

Management & employee relations

Decisions and how to make them featured at PIMA conference . . . . . 26 Aug. 1
Fibreboard plans to become a smaller, stronger company–Karen R. Boiko . . . . Cover July 15
How effective is operator training?–Paul D. Oliver . . . . . 58 Aug. 15
Outlook for labor demands this year in U.S. (Joseph P. Tonelli, UPIU)–Robert C. Tate Cover Feb. 1
St. Regis/Jacksonville's new management team (headed by Ted Robinson) boosts efficiency and drops absentee rate . . . . . 40 Feb. 1

Miscellaneous

Are paper standards possible? Our readers respond . . . . . 38 Feb. 1
CFI exec speaks to minority students on the dream vs. the reality of equal opportunity. 32 May 15
Greater use of trucks predicted if proposed Conrail increase takes place–Frank Vizard 40 June 1
'Managing' quality to enhance profitability –L.D. Edenborough . . . . . 39 May 1

1977 feature articles

Hetherington, L.E., Hagymassy, J. Jr. and Moss, M.H.–New Lab coater provides closer correlation to on-line experience. Feb. 15, p. 54
Holton, James E.–Handling, dispersing and dispensing of talc: new methods can improve pitch control. May 1, p. 48

I

Inserra, Peter–TMP continues to general interest as crowds jam session at TAPPI, March 15, p. 42
Inserra, Peter and Boiko, Karen R.–PTJ transportation survey: constant effort and ingenuity needed to combat rising costs. April 1, p. 34

J

James, R.C.–Packaging machinery safety guides. Feb. 1, p. 30

K

Kallmes, Otto J.–Understanding the role of turbulence should lead to improved formation. Feb. 15, p. 44
Kallmes, Otto J. and Ayer, John A.–Optical device installed at wet end monitors single-pass filler retention. March 1, p. 32
Koffinke, Richard A.–Combining high and low consistencies. Nov. 1, p. 45

L

Landegger, Carl C.–Thoughts at 2 a.m.: Reflections on the paper industry. June 1, p. 49
Liljas, M. and Wallen, B.–Corrosion performance of high-molybdenum stainless steel. Dec. 1, p. 39
Lund, Heroert F.–Stone Container's first 50 years just a springboard to much greater growth. Jan. 1, p. 29

M

Michaud, Ralph W.–Only 36 companies can afford future growth and expansion. Oct. 15, p. 34
Moss, M.J., Hagymassy, J. Jr. and Hetherington, L.E.–New Lab coater provides closer correlation to on-line experience. Feb. 15, p. 54

N

Nathan, C.C. and Piluso, A.J.–It takes know-how to combat wet-end corrosion problems. Nov. 15, p. 32

O

Oliver, Paul D.–How effective is operator training? Aug. 15, p. 58

P

Piluso, A.J. and Nathan, C.C.–It takes know-how to combat wet-end corrosion problems. Nov. 15, p. 32
Polokoff, Audrey H.–API campaigns for more and cleaner recyclables. Nov. 1, p. 55

R

Rohrer, John W.–Honeycomb rolls are being used more and more; a manufacturer tells why. July 15, p. 23

S

Stead, Harr and Wilson, William B.–Industrial turbine energy supply systems can provide reliable, economic power. Sept. 15, p. 35

T

Tate, Robert C.–Braviken TMP mill making pulp for newsprint, magazine grades. July 1, p. 26
_____Mystery of de-inking mill–Moreau, N.Y. Nov. 1, p. 36
_____Outlook for labor demands this year in the U.S. Feb. 1, Cover

V

Vizard, Frank–Greater use of trucks predicted if proposed Conrail increase takes place. June 1, p. 40
_____Environmental laws in midst of directional change. May 15, p. 37

W

Wallen, B. and Liljas, M.–Corrosion performance of high-molybdenum stainless steel. Dec. 1, p. 39
Wilson, William B. and Stead, Harry–Industrial turbine energy supply systems can provide reliable, economic power. Sept. 15, p. 35
Woodard, E.R.–New concept gives Appleton Papers superior vacuum control. Sept 15, p. 40
Woodard, E.R.–How double-layer fabric has reduced linting at newsprint mill of Publishers Paper. Sept. 1, p. 30

New York City's only paper mill produces handmade specialties . . . . . 53 Nov. 15
Revitalized Institute of Paper Chemistry is on its way to education, research goals–Karen R. Boiko . . . . . 33 May 15
Stone Container's first 50 years just a springboard to much greater growth–Herbert F. Lund . . . . . 29 Jan. 1
Test run proves potential of kenaf . . . . . 53 Oct. 15
Thoughts at 2 a.m.: Reflection on the paper industry–Carl C. Landegger . . . . . 49 June 1
Who's who in North American papermaking 51 June 15

Paper & board manufacture

Bel Bond former is said to cut costs, improve output and quality of board . . . . . 24 July 15
Binders, dispersants, brightness are among topics of Coating Conference papers . . . . 27 Aug. 1
Handling, dispersing and dispensing of talc: new methods can improve pitch control–James E. Holton . . . . . 48 May 1
How double-layer fabric has reduced linting at newsprint mill of Publishers Paper–E.R. Woodard . . . . . 30 Sept. 1
How sheet flutter can be reduced through use of single felting–Clement B. Edgar Jr. . 33 Jan. 15
Inducing fiber-dispersing turbulence can improve formation–Otto J. Kallmes . . . . . 44 Feb. 15
New chemicals and methods highlight TAPPI Coating Conference . . . . . 32 July 15
New lab coater provides closer correlation to on-line experience–J. Hagymassy Jr., L.E. Hetherington and M.H. Moss . . . . . 54 Feb. 15
Reduced streaking is one of several attributes of roll-blade coating . . . . . 45 May 1
Schoeller installs "Unfoil" system to improve drainage . . . . . 42 April 1
Single-jet traversing shower cleans felts more uniformly . . . . . 42 April 15
Snowflake III: Continental's Augusta mill to make four-ply, Yankee-dried bleached board–Karen R. Boiko . . . . . Cover March 15
Stock prep was theme of U.K. Div. conference . . . . . 36 Jan. 15
TAPPI Coating Conference: reports focus on drying, blade coating . . . . . 50 Aug. 15
Technology Update: Ultrasonic device promises superior on-machine cleaning of wet felts . . . . . Cover Jan. 15
Wet-end barring and stock blending were among topics featured at TAPPI's Papermaker's Conference . . . . . 34 July 15
Wet-end barring and twin-wire forming were among topics at TAPPI Papermakers' Conference . . . . . 33 July 1
Where profit is going down the drain in the finishing room . . . . . 70 Feb. 15
Why bother about first-pass retention of solids on the paper machine?–Kenneth W. Britt . . . . . 36 April 15

Process controls

Computer control system on recovery boiler centralized control, reduces manpower needs . . . . . 44 April 1
7% savings in steam usage of corrugator is reported by box plant using new controls –Dale Fuller . . . . . 31 April 15
Optical device installed at wet end monitors single-pass filler retention–Otto J. Kallmes and John A. Ayer . . . . . 32 March 1

Pulping & bleaching

Acadia bleach plants uses recalled vacuum thickeners . . . . . 40 Sept. 1
Air cannons solve wood fines bridging problem at CP mill . . . . . 40 April 15
Combining high and low consistencies–Richard A. Koffinke . . . . . 45 Nov. 1
Economic advantages of the closed-cycle mill . . . . . 33 March 15
Great Lakes Paper launches first closed-cycle pulp mill . . . . . 29 March 15
Hi-Q Pressure Knotter at Great Lakes simplifies screen room operation . . . . . 39 April 15
Stock preparation trends key on energy, raw material . . . . . 51 March 15
Sulfur recovery appears feasible with ion-exchange process . . . . . 41 April 15
Western Michigan University dedicates its expanded pilot recycled pulp facility . . . 38 Oct. 1
TMP continues to generate interest as crowds jam session at TAPPI–Peter Inserra . . . . . 42 March 15
TMP systems get more complex, but stones still grind away (International Pulping Conference) . . . . . 28 Oct. 1
Will energy costs prove to be the Achilles heel of mechanical pulp? (Report on International Mechanical Pulping Conference) . Cover Aug. 1

Research & development

Focus on research at 41st IPC Executives' Conference . . . . . 30 July 1
IPC reports on stress distribution in corrugated containers and cold corrugation . . . 62 Aug. 15
IPC report updates understanding of retention aid behavior . . . . . 31 Aug. 1
Revitalized Institute of Paper Chemistry is on its way to education, research goals–Karen R. Boiko . . . . . 33 May 15

Safety

Kimberly-Clark spends millions on employees' health, well-being . . . . . 40 Dec. 15
PTJ Safety Checklist: Boiler maintenance guidelines . . . . . 32 April 15
Packaging machinery safety guides - checklist–R.C. James . . . . . 30 Feb. 1

Secondary fibers

API campaigns for more and cleaner recyclables–Audrey H. Polokoff . . . . . 55 Nov. 1
Combining high and low consistencies–Richard A. Koffinke . . . . . 45 Nov. 1
De-inking in Finland: First mill on stream, second to make market pulp–Harry Dyer . 30 Nov. 1
Flotation de-inking–Georgia-Pacific's Kalamazoo, Mich., mill . . . . . 50 Nov. 1
High consistency preparation of waste paper can save power and improve quality (TAPPI Engineering Conference) . . . . . 57 Nov. 1
Mead prefers independent sources–Robert L. Adams . . . . . 38 Nov. 1
Mystery of de-inking mill–Moreau, N.Y.–Robert C. Tate . . . . . 36 Nov. 1
Solving synthetic coating problems–Wally Bergstrom . . . . . 51 Nov. 1
